

ENTRApin

Wireless keypad

With the ENTRApin, SOMMER offers an access control system with an individually programmable number code. Doors can be opened with your personal PIN code – without a key or an access card.

Benefits:

- Storage of an access code (min. 4, max. 8 digits)
- 1 channel can be controlled: e.g. door or gate
- Extremely secure transmission thanks to the SOMMER radio with the Somloq Rollingcode
- No short circuits or bridging possible as with wired systems
- Alphanumeric keypad with lighting
- Status indication for transmission and failure (LED green/red)
- Weather-proof housing - even withstands snow and ice
- Quick and easy installation: no power supply connection and no wiring necessary

TECHNICAL DATA

Temperature range	-20 °C to +55 °C
Frequency ¹⁾ (Somloq Rollingcode)	FM 868,8 MHz
Range ²⁾	approx. 25 m
Dimensions ³⁾	149 x 69 x 45 mm
