

# SOLO-KP

## Multi apartment GSM or 3G door entry device

### NEW SOLO KP with multi apartment solution

The **SOLO-KP** is an audio GSM "Door phone to Phone" device for multi apartment buildings, companies, etc., allowing you to control visitors. When visitors press your apartment number on the keypad of the **SOLO-KP** device, your mobile and/or landline phone rings and you can talk to visitors. By pressing two digit code on your telephone keypad you can open the doors - like on ordinary Intercom.

**SOLO-KP** is suitable for up to 100 (200, 500, 1000) apartments, 2 phone numbers per apartment. Reprogramming of the parameters, adding or deleting the user phone numbers is easy with sending text message - SMS to the device, with Smartphone app, with EasySet program installed on your PC or with Web Access.

The **SOLO-KP** unit allows you to remotely open doors by pressing two digit code on your phone or by using the Caller ID recognition - free of charge or with entering access entry codes on the keypad.
